Request for Bid

2026 Circle Park – Scope of Work

1. Project Overview

The Town of Meeker is seeking bids for a Fall 2026 project to make improvements at our Circle Park location. The exact implementation timeline is flexible and will depend on contractor availability and estimated duration of work. All materials, equipment, and components referenced in this Scope of Work must be secured by the Town of Meeker (TOM) or the selected contractor prior to the start of excavation. Bids should include dates of contractor availability to complete the project this Fall.

2. Project Components

A. Installation of Weir Structure

- Install a weir on the downstream side of the West Bridge. It is required that the weir be bolted to the existing concrete bridge risers.
- Weir will contain a rectangle cut notches for flow measurement. *(TOM will purchase and build structure to meet State requirements.)*
- Install two staff gauges on the pond side of the bridge to record: *(TOM will purchase the correct gauges approved by the State.)*
 1. Outflow stream measurements
 2. Pond depth measurements
- Clean the drainage to the river to allow the weir to work correctly and allow the drainage to not restrict pond flow.

B. Maintenance Crossing Installation

- Install and properly bed a 48-inch culvert crossing located between the West Bridge and the river.
- This crossing needs to support vehicle traffic for necessary maintenance access, allowing TOM staff to reach both sides of the pond without relying on Cemetery District access.
- The crossing cannot restrict flow or impede on the operation of the weir.

C. Fish Screen and Bypass Culvert Adjustments

- Remove and SALVAGE fish screen structure.
- Remove and SALVAGE the 24-inch bypass culvert for the TOM.

3. Site Restoration Requirements

- All construction areas and any disturbed portions of Circle Park must be restored to the same condition as before the start of the project.
- Restoration includes grading, soil stabilization, reseeding, and any additional measures necessary to return the park to its original state.

Proposal Deadline: **September 28, 2026, by 3:00pm.** Please submit proposals to the Town of Meeker 345 Market Street, Meeker CO 81641, Attn: Jak Kilduff.
